Question: 7

To avoid costly manual processes, you want to provide self-registration capabilities to visitors, but want to ensure that only legitimate guests, and invited/visiting specific employees, are allowed to have a guest access. Also for security reasons you need to keep track of guest devices and statistics of Internet usage.

To provide only self-registration capabilities, which IDE application should be used?

- A. Ignition Analytics
- B. Ignition Server
- C. IDE Access Portal
- D. Avaya Wireless Orchestration System
- E. IDE Guest Manager

Answer: E

Question: 8

Which three settings need to be configured on Ignition Server and Guest Manager before integration? (Choose three.)

- A. SOAP setting/port number on Ignition Server
- B. Guest Manager RADIUS
- C. Provisioner setting
- D. Guest Manager Appliance settings
- E. An email server

Answer: A,B,D
